# Bespoke Price List

JUNE 2026

[www.tranterfunerals.co.uk](http://www.tranterfunerals.co.uk)

**Every Funeral Director in the UK is legally required to provide bereaved families with a 'Standardised Price List' however the service you receive and the facilities a Funeral Director provides are not standard, therefore it is difficult to use this measure as a comparison. When comparing costs, it is important to consider the level of service you will receive and the standards of care and professionalism you and your loved ones deserve.**

Unfortunately, the 'Standardised Price List' does not include or have provision to include some of the services Tranter's offer in our 'Traditional Funeral' which is why we have produced a more detailed price list.

Here at Tranter's, we believe that every Funeral we arrange and every family we have the privilege to serve is unique, this is why we have chosen to offer such a wide range of services.

L Tranter & Son is a family owned and run business that has been part of your community for six generations. As a totally independent family business, operating out of St Georges, Donnington and Newport (Evans & Tranter) we are committed to offering our clients a personalised cost effective service.

As members of The National Association of Funeral Directors (NAFD) and The Society of Allied and Independent Funeral Directors (SAIF) we have chosen to abide by their Codes of Practice which includes having our facilities regularly inspected.

Many people who experience an 'Unattended Direct Cremation' regret not having the opportunity to celebrate their loved one's life with relatives, friends and colleagues at a Funeral Service. In many cases it is the deceased's own decision to choose this type of Funeral and not the wishes of those left behind. For this reason, we are now offering families the chance to hold a memorial service in our Aston House Service Hall at a later date.

# Aston House Memorial Services

(Following an Unattended Direct Cremation)

**A memorial service at Aston House would not include the formal parts of our Traditional Funeral, with no procession from the family home and no Coffin present at the service. It could however include your chosen music, eulogies and tributes, a visual tribute on the large screens and even the option of live streaming the service.**

**A Memorial service at Aston House would take place on a separate occasion, following an Unattended Direct Cremation, so it would also be possible to have your loved ones Ashes present for the service.**
